PROFILE

My name's Lethean Seourn, who is a second-year Web Development student at Passerelles Numerique Cambodia in 2025.

SCHOOL EXPERIENCES

WEB DESIGN PROJECT
MUSIC BAND WEBSITE

21/SEP/2024 - 4/NOV/2024

My role in this project was as the team leader. I collaborated with my team on a website project, and our teamwork paid off successfully. Through this experience, I gained valuable skills in HTML, CSS, SASS, and Figma.

ALGORITHM PROJECT
TELEGRAM CHATBOT

11/Nov/2024 - 20/Nov/2024

In this project, I worked in a team of three members and served as the team leader. I managed the team to develop a Telegram chatbot using Python, integrated with the Telegram API.

SOFTWARE DEPLOYMENT PROJECT
HOSTING WORDPRESS WITH AWS

30 /Dec/2024 - 5/ Jan/ 2025

I independently set up and managed a WordPress website on an Ubuntu server using the command line. The server was deployed on AWS for better performance and scalability, and I used MobaXterm to handle remote server management tasks.

JAVASCRIPT PROJECT
TASK MANAGEMENT APPLICATION

12/Jan/2025 - 26/Jan-2025

I managed team members and checked all roles for which they were responsible. This project was a team effort, where we used HTML, CSS, and JavaScript create the system. Plus, It's all about making the frontend look awesome!

VIRTUAL COMPANY 1 PROJECT (VC1)
E-COMMERCE SYSTEM

25/Feb/2025 - 02/May/2025

My school team and I developed a E-commerce System. I was the Product Owner, responsible for setting the project vision, prioritizing features, and aligning the work with user needs. We built both the front-end and back-end using HTML, CSS, Bootstrap, JavaScript, PHP (MVC), MySQL, and used Jira for project management.

INTERESTS

- Music
- Self-Study
- Research
- Play Volleyball
- Play Football
